

**LEGAL NOTICE OF INTENT TO ISSUE STANDARD AIR CONTAMINANT  
DISCHARGE PERMIT NO. 205823 (ACDP 205823)**

In accordance with Title 37 of Lane Regional Air Protection Agency's Rules and Regulations, the following facility has made application for a Standard Air Contaminant Discharge Permit.

**NORTHERN GOLD FOODS (USA), LLC** (New)  
Granola Manufacturing Facility  
29323 Meadowview Road, Junction City

Emissions will be limited by the permit to the Generic PSEL level for all pollutants except VOC which is set at the source-specific level accounting for the level requested by the applicant:

PM = 24 tons per year; PM10 = 14 tons per year;  
PM2.5 = 9 tons per year; NOx = 39 tons per year;  
CO = 99 tons per year; VOC = 48 tons per year;  
GHG = 74,000 tons per year.

None of these emission limits, except VOC, exceed the Significant Emission Rate (SER) established by Lane Regional Air Protection Agency (LRAPA).

The following table presents maximum allowable emissions of criteria pollutants for the facility. The current emission limit reflects maximum emissions the facility can emit under the existing permit. The proposed emission limit reflects maximum emissions the facility would be able to emit under the proposed permit. Typically, a facility's actual emissions are less than the maximum limits established in a permit; however, actual emissions can increase up to the permitted limit.

Criteria Pollutant	Current Limit (tons/year)	Proposed Limit (tons/year)
Particulate matter	NA	24
Small particulate matter	NA	14
Fine particulate matter	NA	9
Carbon monoxide	NA	99
Nitrogen oxides	NA	39
Volatile organic compounds	NA	48
Greenhouse gases	NA	74,000

For more information about criteria pollutants, go to EPA's "[Criteria Air Pollutants](#)" page.

LRAPA has prepared and proposes to issue a permit to this company. The application, draft permit, review report, and relevant information are available for public review, by appointment, at LRAPA's office, 1010 Main Street, Springfield, Oregon, by calling (541) 736-1056 extension 210. The Draft Permit and Review report are located for review on the LRAPA website at [www.lrapa.org](http://www.lrapa.org). Written comments must be received **no later than 5:00 pm, FEBRUARY 17, 2019**, and submitted to: LRAPA Permit Coordinator, 1010 Main Street, Springfield, Oregon 97477 or by e-mail to [colleen@lrapa.org](mailto:colleen@lrapa.org).

Anyone desiring to submit information concerning the application or proposed permit which might assist LRAPA in concluding the issuance of a permit for the above-listed

company is urged to do so. Any comments must be submitted by 5:00 p.m. on:

**FEBRUARY 17, 2019**
