

**BASIC
AIR CONTAMINANT DISCHARGE PERMIT**

Lane Regional Air Protection Agency
1010 Main Street
Springfield, OR 97477
(541) 736-1056

This permit is being issued in accordance with the provisions of LRAPA's Rules and Regulations and based on the land use compatibility findings included in the permit record.

ISSUED TO:

Haugen Advertising & Graphics, LLC
4681 Isabelle St.
Eugene, Oregon 97402

INFORMATION RELIED UPON:

Application No.: 60324
Date Received: February 25, 2015

PLANT SITE LOCATION:

4681 Isabelle St.
Eugene, Oregon 97402

**LAND USE COMPATIBILITY
STATEMENT:**

Approving Authority: City of Eugene
Approval Date: February 19, 2015

ISSUED BY THE LANE REGIONAL AIR PROTECTION AGENCY

MAR - 6 2015

Merlyn L. Hough, Director

Dated

Source(s) Permitted to Discharge Air Contaminants (LRAPA Section 37-0020):

Table 1 Code	Source Description	SIC
Part A, 7	Surface coating operations whose actual or expected usage of coating materials is less than 250 gallons per month, excluding sources that exclusively use non-VOC and non-hazardous air pollutant containing coating.	2759

1.0 PERMIT ASSIGNMENT

- 1.1 Permitted Activities** The permittee is allowed to discharge air contaminants from processes and activities related to the air contaminant source(s) listed on the first page of this permit until this permit expires, is modified, revoked or rescinded as long as conditions of this permit are complied with the conditions of this permit.

2.0 EMISSION STANDARDS AND LIMITS

- 2.1 Production Limits** The permittee is prohibited from using more than **250 gallons/month** total of VOC containing products without first notifying LRAPA.
- 2.2 Visible Emission Limits** Emissions from any air contaminant source must not equal or exceed 20% opacity for a period aggregating more than 3 minutes in any one (1) hour. "Opacity" means the degree to which an emission reduces transmission of light and obscures the view of an object in the background.
- 2.3 Fugitive Emissions** The permittee must take reasonable precautions for preventing fugitive dust emissions.
- 2.4 Particulate Matter Fallout** The permittee must not cause or permit the emission of any particulate matter larger than 250 microns in size at sufficient duration or quantity, as to create an observable deposition upon the real property of another person. LRAPA will verify that the deposition exists and will notify the permittee that the deposition must be controlled.
- 2.5 Nuisance and Odors** The permittee must not cause or allow air contaminants from any source to cause a nuisance. Nuisance conditions will be verified by LRAPA personnel.
- 2.6 Other Regulations** In addition to the specific requirements listed in this permit, the permittee must comply with all other legal requirements enforceable by LRAPA.

3.0 RECORDKEEPING AND REPORTING REQUIREMENTS

- 3.1 Records** The permittee must maintain records of the information identified in Conditions 3.2 for at least 2 year from date of the record.
- 3.2 Reports** The permittee is required to report to LRAPA by **February 15th of each year** the following information:
- a. Number of gallons of VOC containing coatings during the previous calendar year (gal/year); and
 - b. Written log of all air quality or nuisance complaints and how each complaint was handled.
- 3.3 Permit Renewal** An application to renew the permit is due 60 days prior to the expiration date.
- 3.4 Construction or Modification Notices** The permittee must notify LRAPA before adding new or modifying existing equipment to the extent that process equipment is substantially changed or added to, or emission are significantly changed or increased.
- 3.5 Notice of Change of Ownership or Company Name** The permittee must promptly notify LRAPA of any change of mailing address, company name, or plant ownership. The permit will expire 60 day after a change in the legal entity owning/operating the facility unless application, with appropriate fees, in made to transfer the permit to the new entity.
- 3.6 Where to Send Reports and Notices** The reports and notices, with the permit number prominently displayed, must be sent to the LRAPA office identified on the cover page of the permit

4.0 FEES

- 4.1 Fees** The Annual Fee specified in LRAPA Section 37-0020, Table 2, Part 2 for a Basic ACDP is due on **December 1st** of each year this permit is in effect. An invoice indicating the amount, as determined by LRAPA regulations, will be mailed prior to the above date.

5.0 GENERAL CONDITIONS

- 5.1 Masking of Emissions** The permittee must not cause or permit the installation of any device or use any means designed to mask the emissions of an air contaminant that causes or is likely to cause detriment to health, safety, or welfare of any person or otherwise violate any other regulation or requirement.
- 5.2 Open Burning** The permittee may not conduct any open burning except as allowed by LRAPA in advance.
- 5.3 Asbestos** All activities involving asbestos-containing materials, including, but limited to, demolition, renovation, repair, construction, and maintenance must be performed by persons certified for asbestos abatement projects. Accumulation of asbestos containing material is prohibited. If you have asbestos questions, contact the LRAPA office identified below.
- 5.4 Permit Availability** The permittee must have a copy of the permit available at the facility at all times.
- 5.5 LRAPA Inspections** The permittee must allow LRAPA's representatives access to the plant site and pertinent records at all reasonable times for the purposes of performing inspections, surveys, collecting samples, obtaining data, reviewing and copying air contaminant emissions discharge records and conducting all necessary functions related to this permit.
- 5.6 Legal Disclaimers** The issuance of this permit does not convey any property rights in either real or personal property, or any exclusive privileges, nor does it authorize any injury to private property or any invasion of personal rights, nor any infringement of federal, state, or local laws or regulations.
- 5.7 Permit Revocation** This permit is subject to revocation for cause.
- 5.8 LRAPA Contact** Call the LRAPA office in Springfield at (541) 736-1056

6.0 ABBREVIATIONS, ACRONYMS, AND DEFINITIONS

ACDP	Air Contaminant Discharge Permit	NO _x	nitrogen oxides
ASTM	American Society for Testing and Materials	NSPS	New Source Performance Standard
AQMA	Air Quality Maintenance Area	NSR	New Source Review
calendar year	The 12-month period beginning January 1st and ending December 31st	O ₂	oxygen
CFR	Code of Federal Regulations	OAR	Oregon Administrative Rules
CO	carbon monoxide	ORS	Oregon Revised Statutes
DEQ	Oregon Department of Environmental Quality	O&M	operation and maintenance
dscf	dry standard cubic foot	Pb	lead
EPA	US Environmental Protection Agency	PCD	pollution control device
FCAA	Federal Clean Air Act	PM	particulate matter
gal	gallon(s)	PM ₁₀	particulate matter less than 10 microns in size
gr/dscf	grains per dry standard cubic foot	ppm	part per million
HAP	Hazardous Air Pollutant as defined by LRAPA Title 44	PSD	Prevention of Significant Deterioration
ID	identification number	PSEL	Plant Site Emission Limit
I&M	inspection and maintenance	PTE	Potential to Emit
lb	pound(s)	RACT	Reasonably Available Control Technology
LRAPA	Lane Regional Air Protection Agency	scf	standard cubic foot
MBF	1000 board feet	SER	Significant Emission Rate
MLF	1000 linear feet	SIC	Standard Industrial Code
MMBtu	million British thermal units	SIP	State Implementation Plan
MSF	1000 square feet	SO ₂	sulfur dioxide
NA	not applicable	Special Control Area	as defined in LRAPA Title 29
NESHAP	National Emissions Standards for Hazardous Air Pollutants	VE	visible emissions
		VOC	volatile organic compound
		year	A period consisting of any 12 consecutive calendar months

Reports			NSPS	Size	Public Notice
Annual	Semi-annual	Excess Emissions			
X	NA	NA	NA	B	1

1. The proposed permit is a new permit for an existing source located on 4681 Isabelle Street, Eugene.
2. The facility operates a graphics and advertisement manufacturing facility. The facility designs and manufactures vehicle and other large format advertisements by applying coatings to paper substrates. The application indicates that the facility does not utilize a spray booth. The facility usage is approximately 71 gallons per month of VOC containing coatings.
3. This facility qualifies for a Basic ACDP because less than 250 gallons per month of VOC coating will be used. LRAPA has a permitting category called "Paper or other Substrate Coating" (Section 37-0020, Table 1, B.52) but that category is unused at the Agency. Furthermore, placing the facility in the surface coating category (Section 37-0020, Table 1, A.7) is consistent with how other facilities with similar coatings usages are categorized.
4. The facility is located in an attainment area for all pollutants. The Eugene Springfield Air Quality Maintenance Area is currently a maintenance area for PM₁₀ and CO.
5. LRAPA has determined that sources that qualify for a Basic ACDP will not have significant emissions. In most cases the emission will not exceed 5 tons of PM or PM₁₀ or PM_{2.5} or 10 tons of any other pollutant. Therefore, the Basic ACDP does not include Plant Site Emission Limits and it is not necessary to estimate emissions for each individual source.
6. Pursuant to LRAPA Section 37-0056-4, issuance of a new Basic Air Contaminant

Discharge Permit requires public notice in accordance with LRAPA Section 31-0030-3.A. Therefore, there will be no prior notice or public participation. However, LRAPA will maintain a list of all permit actions processed under Category I and make the list available for public review.
