

Lane Regional Air Protection Agency
Minimal Source Air Contaminant Discharge Permit

REVIEW REPORT

Collins Wood Lath, Inc. - Eugene Plant

Permit No: 201289

PERMITTING

Permitting Action

1. The permittee is an existing facility applying for a renewal of its Air Contaminant Discharge Permit (ACDP).

Other Permits

2. No other permits have been issued or are required by LRAPA for this source.

Attainment Status

3. The source is located in an attainment area for all pollutants except PM₁₀ (particulate matter less than 10 microns in size). The Eugene/ Springfield Air Quality Management Area is a non-attainment area for PM₁₀.

SOURCE DESCRIPTION

Overview

4. The source operates a wood working operation at 90984 Brown Lane in Eugene. The source controls PM (particulate matter)/PM₁₀ emissions by the use of a baghouse. Total annual production of finished product for the facility is less than 25,000 board feet per shift. Baseline Emissions were not set in the permit because the source is well below the Significant Emission Rates as listed in Title 38 of LRAPA's Rules and Regulations. The facility operates 2,400 hours per year (8 hours per day, 6 days per week, 50 weeks per year).
5. No changes have been made to the facility since the last permit renewal.

Process and Control Devices

6. Existing air contaminant sources at the facility consist of the following:
 - a. Wood working operation
 - b. Baghouse

EMISSIONS

7. The pollutant(s) of concern associated with this source type are PM/PM₁₀. Emissions of PM/PM₁₀ are estimated to be approximately 0.1 tons per year. The other criteria pollutants are emitted at negligible levels. Emission calculation details are included in the attachment to this report.

MINIMAL PERMIT DETERMINATION

8. LRAPA has determined that the source qualifies as a minimal source for the following reason:
 - a. Emissions from this source are estimated to be less than 5 tons per year of particulate matter and less than 10 tons per year for the criteria gaseous pollutants.

SPECIAL CONDITIONS

9. There are no special conditions specified in the permit.

NESHAPS/MACT APPLICABILITY

10. There are no sources at this facility for which NESHAPS/MACT standards have been promulgated.

NSPS APPLICABILITY

11. There are no sources at this facility for which NSPS standards have been promulgated.

PUBLIC NOTICE

Renewal

12. The draft permit was on public notice from October 5, 2007 to November 5, 2007. No written comments were submitted during the 30-day comment period.
